Floors including Canteen Premises + Hospitality Building (Gr.+ 3 Floors).

PTO For Signature & Terms and Conditions

GENERAL TERMS & CONDITIONS

In some cases General Disinfestation and Rodent Control Treatments may not be effective because of many factors beyond our control. If you have entered into a yearly contract and do not find our treatment effective during any time of the year, you can claim a refund for the remaining part of the contract. **No refund will be given for Termite Control treatments since most of our expenses are incurred during the first treatment itself.**

TERMS & CONDITIONS FOR TERMITE CONTROL

- 1) The Company will not be liable to pay for any damage of whatsoever nature suffered by The Clients directly or indirectly due to pests in the premises under control.
- 2) During Check Up visits for Termite Control, treatment is carried out only if termites reappear.
- 3) Treatments will not be effective if the corners of wall & floor are not accessible for drilling because of any furniture fixed to the walls or because of any materials kept along the wall.

LIMITATIONS OF GENERAL DISINFESTATION TREATMENT

General Disinfestation treatment control Cockroaches, Red Ants and other crawling insects, but does not control White Ants, Mosquitoes, Flies And Bedbugs.

General Disinfestation treatment may not be 100% effective because of the following reasons:

- 1) Cockroaches have a tendency to become immune to insecticides.
- 2) The insecticides available to THE COMPANY for household spray are limited because of the Insecticides Act of the Government of India. Even the concentration to be used is restricted so that the insecticides are not harmful for human beings.
- 3) Cockroaches can reinfest from surrounding areas from drains and through other material brought into the premises immediately after our treatment. They cannot be chemically prevented from reinfesting through such media.

LIMITATIONS OF RODENT CONTROL TREATMENT

Rats can reinfest from surrounding areas like neighbouring compounds and garbage dumps immediately after our treatment. They cannot be chemically prevented from reinfesting through such media. Suitable mechanical measures of their prevention must be adopted by the client wherever possible.

We have read and understood the terms, conditions and limitations of the contract
And agree to them.
