

St. Andrew's College of Arts, Science and Commerce

Library and Research Committee with IQAC Organises National Webinar on Publication Ethics and Research Visibility March 19, 2021

Concept Note:

Promoting quality research for creating new knowledge in academics has been always a prime agenda and quality mandate of UGC in the sphere of Indian higher education. In order to maintain the academic integrity, and to prevent publications in the predatory/dubious journals, UGC has set up Consortium for Academic and Research Ethics (CARE). The consortium provides a reference list of quality journals. The mandatory requirement to have publication for the career advancement scheme (CAS) in the CARE listed journals created lots of confusion among the academicians. Along with this, handling self-citations, lack of knowledge about the availability of online databases like Web of Science, selection of right journals, and interpretation of citation metrics are some of the important issues that need to be addressed seriously.

Objectives of the Webinar:

- To promote quality research, academic integrity and publication ethics among researchers.
- To develop an approach for identification of good quality journals.
- To emphasize on making our research visible and accessible.

Resource Persons:

1) Dr. Subhasree Nag,

Sr. Consultant - Life Sciences Scientific Research and Drug Discovery Translational Science at Clarivate Analytics, Bengaluru, Karnataka, India

Topic: Web of Science – Take your research to the next level.

2) Dr. Sushama Powdwal
