SYMPOSIUM

Evolving Inclusive Communities for Greater Solidarity

The major burden of the pandemic was borne by the most vulnerable – the marginalised, disabled, the women and children in slums and rural areas.

Would the Covid 19 Pandemic decimate our hopes and plans for a better-shared future?

We believe not. While the pandemic has posed serious challenges, extraordinary people like administrators, doctors, nurses, health care workers, teachers, police personnel and ordinary people evolved innovative ways to provide caring and affordable services to those in need.

Inclusive, Sustainable approaches require a bedrock of Humanism in order to foster this in our youth.

Our Chair offers a Graduate Diploma course in Religion & Society, Peace and Dialogue endorsed by the University of Mumbai

Our Chair conducts a Post-Graduate Diploma in Inter-religious Dialogue and Water for Sustainable Development in collaboration with the Institute of Indian Culture and Nirmala Niketan College of Social Work in Mumbai.

Our speakers will share their inspiring experiences about poverty alleviation, equity education, gender equality, environmental sustainability, safe drinking water and equitable trade agreements.

It is time to reflect, reboot and renew our commitment to creating a better world for all.
