ACKNOWLEDGEMENT

This report is based on the "SOCIAL OUTREACH PROGRAM (SOP) 2022-23" conducted by St Andrews College, Bandra in collaboration with Ms Deepika Singh a development activist working in the field of social work since last 30 years and currently working for FABC: OHD/CCD & Archdiocesan office for Environment, Mumbai.

This program would not have been possible without the vision and support of Dr. Marie Fernandez the Principal of the college who takes keen interest to ensure that the SOP is conducted meaningfully and successfully year after year.

We would like to specially thank Bishop Allwyn D'Silva who was the brain behind this program initially and for his support and guidance all through the years.

Grateful to Prof. Kevin Miranda and Prof. Janine Coelho the Prof. in charge of the SOP who are mainly responsible for the administrative matters which includes initial orientation and creating right mind set for taking SOP, enrolment of the students for SOP, organising the leaders meeting and addressing the issues related to SOP as and when they occur. The encouragement and supportive approach of the professors was very important for students to give their 100% in completing their SOP for this year.

We are specifically thankful to the directors/ management and staff of all the collaborating centres whose constant support and mentoring was very essential for the students to undertake their SOP.

The group leaders and the SOP groups played key role in coordination and show casing the team work specially the teams who worked on new projects and reached out to people living away from the city. Besides the leaders we would like to mention about those students who exhibited extra ordinary skills in leadership.

While almost all group leaders were very cooperative and enthusiastic there were few leaders who were not available and its then some or the other from their respective groups the students volunteered and took up the leadership of their groups. We are highly appreciating all those leaders for their generosity as well.

The report of the SOP 2022-23 been prepared Ms Deepika Singh the coordinator for Social out Reach who is mainly responsible to design, conduct and supervise the SOP. The photographs that appear in the report have been taken by Ms Deepika Singh and some of the students during their SOP.

For any further updates or information regarding this program you may contact St Andrews College, Bandra or Ms Deepika Singh at: deepika62001@yahoo.co.in

SOP 2022-23 A SUMMARY REPORT

The Social Out Reach Program (SOP) 2022-23 of St. Andrew's College of Arts, Science & Commerce, St. Dominic Road, Bandra (West), Mumbai 400 050, has been successfully conducted in collaboration with Ms Deepika Singh.

The Social Out Reach Program, hereafter will be referred to as SOP in this report for reporting for the SOP 2022-23 which was launched in June 2022 with the initial process of reflection and designing the SOP for the year 2022-23.

While switching back to physical SOP the design had to be well reflected and creatively designed to nurture the energy and desire of the students to engage productively after the gloom of long period of online activities. The SOP design was clear and specific with clearly, which consisted of 14 very interesting areas and projects.

The SOP commenced with 5 classroom orientation sessions and the enrolment of the students for the various SOP projects, besides the input sessions the session dealt with the success

stories and testimonies of the students in past years, the Q & A session was clarifying some of the doubts. The students were also informed about the mandatory code conduct and dress codes during their SOP activities.

About 450 students enrolled for the year 2022-23. The students were divided in theme wise groups and about 40 WhatsApp groups were created for monitoring of the projects on daily basis also helpful in tracing the SOP related issues and resolve them same soon as possible. The First Orientation at the centres was conducted for introducing the students to the vision, priority programs and possible services the students can offer to the centres on the days that the students were available.

The session was conducted as per the time allotted by the centres and then the SOP group was further divided into sub teams as per their timing and project activities. The SOP was monitored on daily basis on WhatsApp. Issues were addressed soon as they were traced on the group activities. Besides 2 leaders' meetings were held for taking the feedback and assisting the students to undertake their SOP conveniently.

The project 14 PROJECTS/ themes for the SOP 2022-23 were interesting, they were : Care For the Aged: Meera Road Nitya Nanda Ashram, Mumbai Project- Naksha Bandra, Navjeet Community Canter, Holy Family Hospital, Hill Road, Village Project- Kasara & Asangaon, Each One Teach One St Anthony School Project, Family Carbon Calculation- Environment Impacts, Vasai Virar Beach Clean-Up, Asha Kiran -Vakola, Aesthesis Foundation- Visually Impaired, Canossa Jeevan Vikas Kendra, Mahankali Caves Road, Andheri East, E Waste Awareness and Collection Drive, Little Angels' School, Bandra, Project Mumbai: Andheri West, Mumbai, House Of Charity Uttan, Mira Bhayandar.

Some of the unique and interesting projects are the SOP done at Nitya Nanda Ashram-Kashmeera, the centre is taking care of the aged who are either thrown away by their family members on the road or are orphan, the students engaged with the aged with much compassion and care. Naksha- Mumbai- Bandra is yet another interesting activity where in the students had to map the road collect data which will be available for general public on scanning of a Q R code.

The Village Project- Kasara & Asangaon always generate much enthusiasm in the students only some who are daring and want to venture into the unknown opt to undertake such SOP, Vasai Virar Beach Clean-Up was customized by a team of students from the locality was greatly appreciated by the Municipal team of the locality. E Waste Awareness and Collection Drive was yet another project the students actively participated in and the SOP at the Little Angels' School, Bandra also was something new and unique SOP for the year where in the students reached out the "special children".

Majority of the SOP groups were very enthusiastic and eager in undertaking their SOP. The leaders played the key role in getting the SOP completed successfully. Therefore, the credit for the success for the SOP for 2022-23 basically goes to the efficient coordinatiion of the group leaders including those who volunteered on their own to lead their respective groups when some of the leaders were unavailble.

DETAILED REPORT OF THE SOP 2021-22

Initial telephonic discussions were held among prof Kevin Miranda, Prof Janine Coelho & Ms Deepika Singh. A tentative time line was drawn for creating SOP design and orientation workshops.

ORIENTATION WORKSHOPS

5 ORIENTATION WORKSHOPS were held in month of August 2022 to basically provide an opportunity to the students to understand the vision and expected outcome of the SOP. The orientation sessions were initiated with recollecting the vision and mission statement of the College which is as given below:

Vision: "A commitment to guide our students to achieve excellence through holistic education"

Mission:

- To mentor students to be morally upright, socially committed and spiritually inspired, by Christian principles, to be responsible citizens of India and the world.
- To enable students, realize their full potential in academic, cultural and sporting pursuits.
- To foster a scientific temper and encourage students to adopt a..... rational approach to solve problems.
- To empower students to be good leaders who will spread the light of knowledge, harmony and equality in all spheres of life.
- To equip students with the required knowledge and skills to face the challenges of the real world

The session also dealt with past experiences, success stories and testimonies of the students. The Q & A session was helpful in clarifying student's questions. Detail discussion on the SOP Design for the year 2022-23 was helpful and clarifying.

SOP IN PROCESS: SOP 2022-23 design

The projects for the SOP were allotted which consisted of 14 themes were all unique and interesting. The centres were -Care For the Aged: Meera Road Nitya Nanda Ashram, Mumbai Project- Naksha Bandra, Navjeet Community Canter, Holy Family Hospital, Hill Road, Village Project- Kasara & Asangaon, Each One Teach One St Anthony School Project, Family Carbon Calculation- Environment Impacts, Vasai Virar Beach Clean-Up, Asha Kiran -Vakola, Aesthesis Foundation- Visually Impaired, Canossa Jeevan Vikas Kendra, Mahankali Caves Road, Andheri East, E Waste Awareness and Collection Drive, Little Angels' School, Bandra, Project Mumbai: Andheri West, Mumbai, House Of Charity Uttan, Mira Bhayandar. Below given table indicates the choices that the students made to undertake their SOP:

Theme	Theme Title	Students
1.	Care for the aged: Meera Road Nitya Nanda ashram	16
2.	Mumbai Project- NAKSHA BANDRA 1 & 2 & Wall painting	85
3.	Navjeet Community centre, Holy Family Hospital, Hill Road	73
4.	Village Project- Kasara & Asangaon	13
5.	Each One Teach One St Anthony School Project	14
6.	Family Carbon Calculation- Environment Impacts	18
7.	Vasai Virar Beach Clean-Up	67
8.	Asha Kiran -Vakola	37
9.	Aesthesis Foundation- Visually Impaired	8
10.	Canossa Jeevan Vikas Kendra, Mahankali Caves Road, Andheri East	13
11.	E Waste Awareness and Collection Drive	30
12.	Little Angels' School, Bandra	16
13.	Project Mumbai: Andheri West, Mumbai	11
14.	House Of Charity Uttan, Mira Bhayandar	2

The table makes it clear that the majority of the students signed in for creative and customised projects rather than the traditional centres makes it clear that the youth are willing to explore creative ways of engaging in socially productive programs and activities.

STUDENTS REPORTS OF THEIR SOP PROJECTS

The Vasai Virar Beach Clean Up: This SOP PROJECT was designed and implemented by the group leaders in collaboration with the SOP supervisor Ms Deepika Singh which comprised of five beach clean ups from November 2022 to January 2023 which includes discussion, awareness on coastal pollution, collection of waste from the beach, interaction among themselves as well as other volunteers on the beach, collection of waste and interaction with VASAI-VIRAR MUNICIPAL CORPORATION (VVMC) PERSONNEL who happened to visit the students on the beach during one of their clean up.

It was not only the VVMC officer who congratulated the students for their good spirit and great work of cleaning the beach but the students themselves have expressed that it was greatly satisfying, motivational and an inspiring act while few of them even expressed the need to continue such exercises on their own.

It is noted that majority of them have done this SOP activity sincerely and have benefited greatly in their personal life. We would like to congratulate the entire team of 40 students along with their leaders for successfully undertaking this SOP and special appreciation to group Jwenil Lopes, SYBCOM C 1659, Varzil Lopes, SYBCOM A and other leaders as well for efficient coordination.

EACH ONE TEACH ONE: CENTRE: St Anthony's High School, Naya Nagar, Mira Road:

Main task was assist the economically poor kids studying in the above-mentioned school and activities consisted of grooming the kids from 3-8 th std as per the ability of SOP students, after individual interaction sessions, there were weekly class activities, the students focused on making academics fun by learning through mnemonics, having quizzes, etc.

they also conducted extra curriculums activities such as drawing, singing, and craft work, at the beginning of each session, looking through the syllabus to make sure that all their homework was completed and help rendering help in the difficult subjects.

Besides this there were various awareness sessions on cybercrime, career guidance and other sessions of building soft skills. Almost all students indicated that the SOP was a great experience, interacting and spending time with these kids

This SOP gives us college students more confidence and practice to be able to speak publicly. It helps us learn how the education system works. It teaches us patience, understanding and asks us to be quick on our feet when it comes to problem solving or critical thinking.

NAVJEET KASARA-ASANGAON : The SOP activity was designed by Ms. Deepika Singh in collaboration with the Directress of Navneet Community Centre and implemented by the students under the guidance of Village Project coordinators of the Centre.

ASANGAON: Four visits were undertaken to the village. Some of the activities were: familiarizing the English alphabets, teaching simple English, taking up their study lessons, teaching poetries, stories, simple basic manners, simple relaxing entertainment sessions such as drawing, dance, singing, games etc. The feedback from the leaders and students indicate that the students enjoyed their SOP Project and found meaning in doing the tiresome activity

each time they travelled away from their comfort zone and that the SOP project has been a great exposure and learning for them. The centre has expressed their gratitude for the student's contribution in reaching out to the village kids and the kids were thrilled each time the students visited them and conducted these activities for them.

It is noted that majority of them have done this SOP activity sincerely and have benefited greatly in their personal life. We would like to congratulate the entire team specially the leader for successfully undertaking this SOP with efficient coordination. We would like to congratulate and thank the students for their whole hearted cooperation in taking up their SOP and special thanks to the leaders for their efficient coordination.

KASARA: The SOP group was further divided into three teams and was delegated with various responsibilities by the group leader. The responsibilities given were: Education: training to the children, helping the kids in their dance practice for the forth coming cultural performance in the month of February 2023 & media handling comprising of taking photos, videos, and report writing.

The feedback from the leader and students indicate that the students enjoyed their SOP Project and found meaning in doing the tiresome activity each time they travelled away from

their comfort zone and that the SOP project has been a great exposure and learning for them. The centre has expressed their gratitude for the student's contribution in reaching out to the village kids and the kids were thrilled each time the students visited them and conducted these activities for them.

It is noted that majority of them have done this SOP activity sincerely and have benefited greatly in their personal life. We would like to congratulate and thank the students for their whole hearted cooperation in taking up their SOP and special thanks to the leaders for their efficient coordination.

E Waste Awareness and Collection Drive: Given today's economic landscape, global warming and various other environmental issues have often been disregarded. We've been taught to care for our planet and simultaneously told to adapt to the changes our planet has been going through in these past decades. I've been searching for new opportunities to try and do my part for the environment and this sop program couldn't come at a better time.

We live in the world of technology; new devices compete for supremacy every day in the market. In this tech-savvy world, with various electronics and machinery being tossed out regularly, "e-waste" has become yet another major harmful component to the ecosystem. Every year, India generates around 2-3 lakh tones of e-waste, the number increasing every single year. The term "e-waste" wasn't unfamiliar to me, in fact it's frequently mentioned in hundreds of essays and lessons we've been taught as students, but dealing with e-waste itself was a whole another kettle of fish.

The harm e-waste causes the environment is not talked about enough, it's the cause of many environmental issues ranging from landfills to human and animal health and the worst part? It's not going anywhere. We've become so accustomed to using various devices and electronics to do everything for us that we've undoubtedly lived in denial about the amount

of e-waste we generate. But it's not all bad, we humans have certainly progressed. We can clean up our own mess and that includes the adverse effects of our inventions on the planet.

Recycling of e-waste is one of the safest and sustainable ways we can reduce this crisis. I was a part of an incredible team of hardworking people who were fully committed to the cause of this program. The SOP group was greatly supported by our principal and teachers, we couldn't have completed this program without the help of our animator Miss Deepika, who came through every time we needed her. This wasn't an easy task, but with the right people it became a huge success.

The group leader was oriented and assigned the task to coordinate with the group. Various teams were formed with specific responsibility to execute the project: A team responsible to over view the collection (2-3 persons) coordinate with Principal Ma'am, identify the place where to store the e waste.

A notice was served signed by the principal which stated the need for E waste Collection and it said this is to bring to your attention that, as part of our eco-friendly initiatives and with an aim to efficiently dispose of e waste, St Andrews College, Bandra is undertaking an E waste drive this month. This cannot be done without your support hence humble request for full cooperation of each and every one. Therefore, kindly hand over all your electronic items from yours/neighbours' homes which are no longer in use or you want to dispose of. The e waste types include: mobiles, chargers, desktops, key board, hair dryers, kitchen appliances, laptops please add to this list....

A team was formed for awareness talks in the classroom and another to keep records of (entry *to be made: name, type of equipment, contact details of the person etc.*) of the e waste deposited in collection place, yet another team was formed to identify e waste collection company – coordinate with them, to may be conduct sessions, collect the e-waste which has been collected by the college, if possible, even pay remuneration in exchange of e waste given them.

One of the teams prepared a short video was prepared for awareness session (5-10 minutes) the video consisted the content as given below:

- What is E waste: list of that is considered as e waste
- How it should be disposed off
- What are services available for disposing off
- Implications of unsafe disposing
- What is the plan (SOP) for E-waste collection
- Persons responsible to be contacted (phone numbers)
- Place / classroom/point where e waste should be deposited
- A register or note book to be maintained with the entries of
- The person and type of e waste deposited

Two drives were conducted over the span of 20 hours, not including neighbourhood drives and awareness program undertaken by the members willingly and with great enthusiasm. At the end of the program, we managed to collect 154.82 kgs of e-waste, this may not be a lot but to us it meant everything. We worked hard and gave it our best and it was all worth

it. The collected e-waste is going to be given to recycling companies that are proficient in dealing with this sort of waste. The leader was very grateful to be given this opportunity who stated that her heart is full with memories and appreciation and hoping to undertake more activities that make her aware of her duties towards mother nature.

PROJECT MUMBAI, Andheri East

4 batches of students signed in for the SOP with Project Mumbai. Main activities under the project were:

- Wheelchair basketball media group
- Street wall painting
- Naksha Mumbai 1 & 2

Given below is the snap shot of the orientation session with the Project Mumbai Staff to share details with the SOP team to plan the activities.

Wheelchair Basketball: Media Group: The program was held on 8th Dec 2022 from 8 to 10 am. The Chief guest was the Indian coach and other important personalities like the Head of our SOP and The Principal.

The students designed the posters and the banners for the event and helped with the editing of the reels and introduction to the videos. The whole event was found very inspiring by the students from St Andrews as well students of other colleges who came to witness the match. The SOP team helped with the videography and shooting of the match and there were men and women and children who were playing this game. There was one winner team, the match was a very friendly game, there was no rivalry as such they were very respectful and kind to each other.

Invites you to watch India's Best Men and Women Wheelchair Basketball Players in action

MAKING MUMBAI INCLUSIVE
#Mumbai Ke Liye Kuchh Bhi Karega

BYCULLA STREET WALL PAINTING : "Beautifying Mumbai Streets" was one of the SOP activities by Project Mumbai, an orientation was conducted with a short explanation which entailed painting Byculla railway station walls in traditional Indian style paintings. The aim of the activity was beautifying the street as well as lower the chances of people littering around.

The street painting team undertook painting of the Byculla streets along with volunteers from other colleges, schools, NGOs and corporate companies. Given here is a snap shot of a student painting the walls.

The group was formed and the leader did a great job of coordinating with the group, discussing on the art work including purchase of necessary items such as paints, disposable gloves, paint brushes, disposable aprons, biscuits and water bottles for each team member. The sessions were held in spite of much inconveniences the group managed to do some painting. It was a great learning experience; the team members were really

hardworking and supportive. There were some failures too, however the leaders feels that it was a great learning experience for the team.

NAKSHA MUMBAI (THE MAP): Project Mumbai is a Mumbai based award-winning charitable trust registered under Bombay Public Trusts Act 1950. The mandate is to focus on People, which remain the Purpose and Positive Difference being the outcome of the project. In July 2020, the United Nations awarded them with the SDG Solidarity Action Award 2020, for their humanitarian work during the COVID 19 pandemic. Only 50 organizations globally were chosen for this honour, Project Mumbai being one of them. In November 2021, Project Mumbai has initiated **PROJECT NAKSHA** (THE MAP) – Re-discovering Mumbai, with a formal association with the Municipal Corporation of Greater Mumbai (MCGM).

Below given are the group leaders who has signed in for the mapping project.

The SOP students of St Andrews College from SYBA & SY BCOM volunteered to participate in mapping the roads. The role of the students was to engage in mapping of the Roads of H West Ward and finding the cultural history and story behind the name of the road. The data base has been of great importance as the data would be displayed on QR codes and made available on the MCGM website.

This was a great contribution of the SOP 2022-23 of the St Andrews College to the H West Ward and to Bandra West in general. The Project Mumbai organization expressed their gratitude to the college for the contribution of the students.

They very well recognized and appreciated the efforts of the students by giving them an acknowledgement. They were rewarded a certificate for their work.

FAMILY CARBON CALCULATION- ENVIRONMENT IMPACTS: The SOP activity "Family Carbon Calculation" consisted of a) Reflection/study on environmental degradation, climate change-climate crisis, its causes, various sectors responsible, impacts, future threats, possible ways to address the challenge of climate crisis, specifically at house hold level and become eco-friendly family/society. b) Waste Audit, survey of the waste (wet & dry) generated in their homes, they calculated, categorized, measured and came up with solutions to efficiently manage waste, reduce & recycle. Efforts towards becoming a "0" municipal waste family was explored. b) Energy audit helped in understanding the use and wastage of energy as well as various electric appliance in use which needed to be switched to 3–5-star rating for efficient use. d) The Family Carbon Calculation, done in collaboration with family members. Calculated the family CO2 emissions and discussed ways to become environment friendly family.

The feedback and learning from the student indicate that this SOP was a good opportunity to reflect on the environmental impact of the family life style practices and specifically the carbon calculation helped in understanding personal carbon emissions through use of electric appliances and travel as well understanding how they can reduce their carbon footprints. We would like to thank the students for their whole hearted cooperation and meaningfully undertaking their SOP activity.

CARE FOR THE AGED: MEERA ROAD NITYA NANDA ASHRAM: Care for the aged: Meera Road Nitya Nanda ashram:

The Ashram is taking care of the aged who are either thrown away by their family members on the road or are orphan, many of them suffering from loss of memory, but they were not sad as they were happy in the company of likewise age group and given food and shelter.

The centre also takes care of the poor villagers' kids while the parents are on daily wage works. The Sop students done a marvellous work by reaching out to these kids with various classes, teaching simple things, drawing, singing etc. The help rendered to the aged was heart touching as the students engaged with the aged with much compassion and care.

SOP STUDENT'S EXPERIENCES: learnings, testimonies etc.

BRITNEY FARGOSE , SYBCOM A, ROLL NO 1333: For my SOP with Navjeet centre I was placed in the laundry services in the Holy Family Hospital, laundry services are one of the most important support services in the present-day hospitals. After all it was a very useful experience. I got to know a lot o things and also got to know about the pain and efforts the hospital workers take to keep the hospital clean and hygienic for us. I would like to thank the sisters who organised the Sop for us.

E-WASTE COLLECTION DRIVE- GRECIAL DSOUZA, 1169 : We live in a tech savvy world, with various electronics and machinery being tossed out regularly, "e-waste" has become yet another major harmful component to the ecosystem. Recycling of e-waste is one of the safest and sustainable ways we can reduce this crisis.

I was a part of an incredible team of hardworking people who were fully committed to the cause of this program. Two E waste collection drives were conducted, we were greatly supported by our principal and teachers, we couldn't have completed this program without

the help of our animator Miss Deepika, who came through every time we needed her. This wasn't an easy task, but with the right people it became a huge success. We worked hard and gave it our best and it was all worth it.

I'm very grateful to be given this opportunity and my heart is full with memories and appreciation. Hoping to undertake more activities that make me aware of my duties towards mother nature.

EACH ONE TEACH ONE: CENTRE: ST ANTHONY'S HIGH SCHOOL & JR. COLLEGE, NAYA NAGAR, MIRA ROAD: This program taught me a lot of things. But if there's one major thing that has stayed with me the most, that would be the patience that this program has taught me. There is no harm in being kind. Not just to the people of our age or older, but the ones who are younger than us too. Ultimately, they learn from us. They pick up on our behaviour and how we treat the world.

We need to be living examples to them instead of just teaching them a few morals and not practising them ourselves. Kids are at an age where they can be moulded very easily. We need to make sure that they are in the right hands and will in the end live and lead good lives I just want to thank everyone involved in starting this program and the ones who are working tirelessly to make this as smooth as possible. This was truly a fun journey!

Devangshu Purohit ROLL NO: 1022 SYBA A: PROJECT MUMBAI: The wheel chair match was very inspiring, it was a very friendly game, there was no rivalry as such they were very respectful and kind to each other. This event taught us all to never lose faith in ourselves and always be positive.

ASHA KIRAN- VAKOLA : Asha Kiran the slum project was yet another opportunity for the students to engage with slum kids, form balwadies, organise children's parliaments, engage with women, compose street plays also collect data on migrants. Below given are group leaders planning for their respective activities.

Asha Kiran is one the oldest SOP centre and one the best NGO whose staff spend much energy on mentoring the students. During and post Covid 19 the centre has reached out with many credible programs for the urban poor population of the locality. Many governmental agencies have come forward to assist the centre in their mission. Like wise one of the banks has given them loan worth 1 Cr for various programs for the slums. The students worked hard at the same time were grateful to th centre for this opportunity to undertake their SOP with tec enter.

CONCLUSION:

The SOP 2022-23 there were 14 Project / themes namely Care For the Aged: Meera Road Nitya Nanda Ashram, Mumbai Project- Naksha Bandra, Navjeet Community Canter, Holy Family Hospital, Hill Road, Village Project- Kasara & Asangaon, Each One Teach One St Anthony School Project, Family Carbon Calculation- Environment Impacts, Vasai Virar Beach Clean-Up, Asha Kiran -Vakola, Aesthesis Foundation- Visually Impaired, Canossa Jeevan Vikas Kendra, Mahankali Caves Road, Andheri East, E Waste Awareness and Collection Drive, Little Angels' School, Bandra, Project Mumbai: Andheri West, Mumbai, House Of Charity Uttan, Mira Bhayandar.

Few of the new additions of SOP centres were challenging as well great learning opportunities for the students. The Nitya Nanda Ashram- Kashmeera, the centre is taking care of the aged who are either thrown away by their family members on the road or are orphan, the students engaged with the aged with much compassion and care. Naksha- Mumbai- Bandra was an interesting collaboration with Project Mumbai where in the students took the task of mapping Bandra roads and collected some important data on the same which was compiled. This information will be available for public on scanning of the respective Q R code.

Asha Kiran the slum project was yet another opportunity for the students to engage with slum kids, form balwadies, organise children's parliaments, engage with women, compose street plays also collect data on migrants.

The Village Project- Kasara & Asangaon always generate much enthusiasm in the students only some who are daring and want to venture into the unknown opt to undertake such SOP, Vasai Virar Beach Clean-Up was customized by a team of students from the locality was greatly appreciated by the Municipal team of the locality. E Waste Awareness and Collection Drive was yet another project the students actively participated in and the SOP at the Little Angels' School, Bandra also was something new and unique SOP for the year where in the students reached out the "special children".

It was observed that the SOP 2022-23 was a great experience and almost all students exhibited great enthusiasm and engaged with much spirit. There were few drawbacks due to unavoidable circumstances. However, on the whole the SOP was undertaken successfully.
